

PatioStone Kits will save you time and up to 65% weight. With higher durability and versatile Indoor / Outdoor applications.

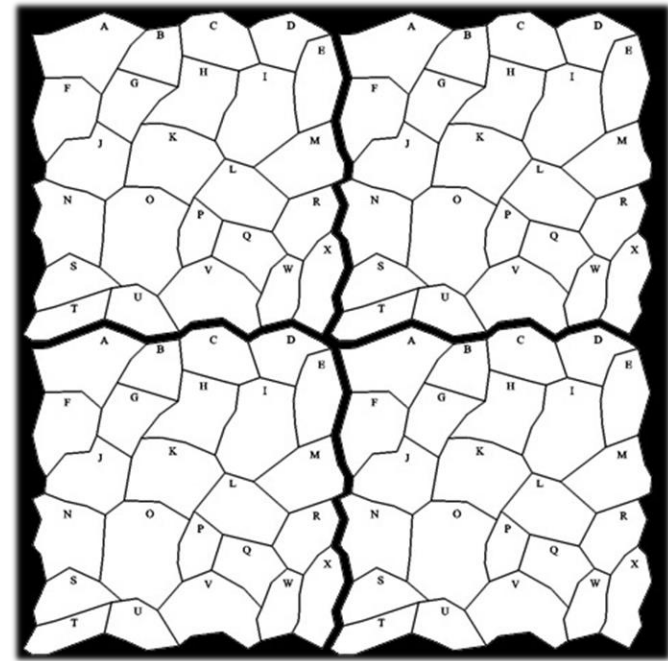

A single kit contains 24 unique tile pieces and covers 115 sq. ft.

A 'left side' straight line and corresponding 'top side' straight line are pre-marked on the underside of the PatioStone for straight line cutting. Use the cut pieces to make a square patio.

This pre-engineered pattern allows you to interlock in any direction continuously.

Install as a concrete overlay or sand set over a compacted base.
